

August 11, 2009

Mr. Mark Flynn
Director, Florida Electronic Library
State Library and Archives of Florida
500 S. Bronough Street
Tallahassee, Fl. 32399

Dear Mr. Flynn:

The Information Use Management and Policy Institute at Florida State University is pleased to support the State Library and Archives of Florida's proposal to the National Technical Information Administration (NTIA) Broadband Technology Opportunity Program (BTOP), *Florida's Broadband Enabled Public Library Campaign*. We believe that this proposal is critical to upgrade and extend the broadband related equipment in Florida public libraries so that Florida residents have significantly improved broadband access and use.

This letter serves as a commitment to participate in the project and agreement to complete the various tasks outlined in the project that are the responsibility of the Information Institute. We look forward to working with you to successfully complete this project.

Sincerely,

A handwritten signature in blue ink that reads 'Charles R. McClure'.

Charles R. McClure, Francis Eppes Professor, and
Director, Information Institute
